

09 Early years practice procedures

09.8 Prime times – Snack-times and mealtimes (older children)

Children are supervised during mealtimes and always remain within sight and hearing of staff.

Snack times

- A 'snack' is prepared mid-morning and mid-afternoon and can be organised according to the discretion of the setting manager e.g. picnic on a blanket.
- Children may also take turns to help set the table. Small, lidded plastic jugs are provided with choice of milk or water.
- Children wash their hands before and after snack-time.
- After the age of two, children can gradually move to semi-skimmed milk as a main drink, as long as they are eating a varied and balanced diet.
- Fruit or raw vegetables, such as carrot or tomato, are offered in batons, which children should be encouraged to help in preparing. Bananas and other foods are not cut as rounds, but are sliced to minimise a choking hazard.
- Portion sizes are gauged as appropriate to the age of the child.
- Biscuits should not be offered, but toast, rice cakes or oatcakes are good alternatives.
- Children arrive as they want refreshment and leave when they have had enough. Children are not made to leave their play if they do not want to have a snack.
- Children are encouraged to choose what they want and to take their own helpings at snack times
- Staff join in conversation and encourage children's independence by allowing them to pour drinks, butter toast, cut fruit etc.

Mealtimes

- Children help staff set tables.
- The tables are set with a plate for each child.
- Children wash their hands.
- Children get their lunch boxes from the trolley and choose where they would like to sit.
- Staff who are eating with the children role-model healthy eating and best practice at all times, for example not drinking cans of fizzy drinks in front of the children.
- Children are given time to eat at their own pace and are not hurried to fit in with adults' tasks and breaks. They are not made to eat what they do not like and are only encouraged to try new foods slowly.

- In order to protect children with food allergies or specific dietary requirements, children are discouraged from sharing and swopping their food with one another.
- Mealtimes are relaxed opportunities for social interaction between children and the adults who care for them.
- There are opportunities for children to eat with friends on other tables.
- After lunch children are encouraged to scrape their plates and help wipe the table and sweep the floor.
- Children go to the bathroom and wash their hands after lunch. Cleaning teeth no sooner than 1 hour after lunch is recommended where hygiene procedures pose no risk (see procedure 04.6 Oral health) Information for parents is displayed on the parent's notice board, including:
 - Ten Steps for Healthy Toddlers https://infantandtoddlerforum.org/media/upload/pdf-downloads/HR_toddler_booklet_green.pdf
 - Daily menus including identification of any foods containing allergens
